Roles and Responsibility of Author(s)
All individuals listed as authors should fulfill at least one criteria from each category:

-Manuscript Revision (have given final approval of the revision to be submitted and any revised version to be published).
Each author should have participated sufficiently in the work to take public responsibility for appropriate portions of the content.
Allowing one's name to appear as an author without having contributed significantly to the study or adding the name of an individual who has not contributed or who has not agreed to the work in its current form is considered a breach of appropriate authorship.
Acquisition of funding, collection of data, contributing cases, or general supervision of the research group, of itself, or just being the chair of the department does not justify authorship if the above criteria are not fulfilled.
